Proficient with spreadsheets, 6+ years advanced QuickBooks experience, strong analytical skills, Python programming, R Programming, foundational knowledge in Django, HTML, and SQL.

WORK EXPERIENCE

Office Admin

William Quick, M.D., San Francisco, CA - June 2014 to Present

- Created and Maintained Patient database using Google spreadsheets and pivot tables to record patients visits, payment information and procedure codes.
- Download and clean payment data from multiple platforms and transformed into a cohesive format for merging into main data sets.
- Create super bills on Box.com (a secured HIPAA compliant cloud platform) to share files and notes with patients via encrypted Electronic Data Interchange (EDI).
- Processing of accounts receivables and reconciliation of records.
- Maintain communication with patients on the status of their accounts and providing records and assistance when requested.
- Ensuring HIPAA Compliance in all communications.
- Liaison with state agencies when needed.

Director of Administration, AR an AP, Compliance team committee member

LOB LLC, Santa Rosa, CA — February 2016 - January 2022

- Provided companywide administrative functions, for example: creating and maintaining filing systems, keeping equipment maintenance and records up to date, purchasing and maintaining stock of office supplies, receiving and chaperoning vendors, insurance companies and fire department inspectors.
- Responsible for AP/AR including creating a database for receivables and automating a system via Monday.com to notify collections team members of departmental daily priorities.
- Formed part of the compliance and operations committee dedicated to ensuring companywide financial and regulatory compliance, including OSHA and State laws.
- Worked with clients and vendors to ensure accounts accuracy and reconciliation of records.
- Assisted Logistics team with ad hoc calls regarding deliveries discrepancies with invoicing, quantities, helped client's receiving teams, drivers' questions and other vehicle issues like insurances.
- Worked with other Directors in the Creation and Revision of companywide Standard Operating procedures.
- Effectively implemented and communicated daily workflow to fellow team members resulting in an increase in productivity and efficiency.
- Implemented systems for data capturing that funneled information from Sales department purchase orders to every other department from Finance, Logistics, Manufacturing and Distribution to facilitate coordination and efficiency of workflow.
- Implemented automation of tasks and notifications. (e.g. Monday to Slack, Google Sheets to slack, QuickBooks to Monday, etc.)
- Reported to Chief Operating Officer and performed as Interim Operations Manager.

Barista

Lavazza-San Francisco, CA - March 2012 to June 2014

Created an exceptional experience for all customers. Memorized and prepared an extensive list of specialty coffee drinks, cleaned and maintained coffee grinding and brewing equipment. Promoted coffee brand by educating customers.

Project Manager

350.org Dominicana-Dominican Republic - Jan 2009 to Nov 2011

- Built strategic connections with other organizations and government agencies.
- Drove efficient project management.
- Helped achieve organizational goals, including successfully organizing participation in key international climate action events, like 350.org eARTh (Art visible from space, photographed via Satellite).
- Helped create the first Recycling program for public schools in the country.
- Awarded Best Work Proposal in the Youth Forum for Water for the Model UN of the Ministry of Education in the Dominican Republic
- Worked in collaboration with international NGOs like Oxfam International and Farmers Associations.
- Received a United Nations Accreditation for COP16.

Spanish and English

PROJECTS

350.org — Dominican Republic

EDUCATION

Harvard (EDX) — Verified Certificate for CS50 Introduction to Programming with R

January 2025 to Present

Learned to represent real-world data with vectors, matrices, arrays, lists, and data frames. Filter data with conditions to analyze subsets of data. Apply functions and loops to manipulate and summarize data sets. Write functions to modularize code and raise exceptions when something goes wrong. Tidy data with R's Tidyverse and create colorful visualizations with R's grammar of graphics. Learned to package, test, and share R code for others to use.

Harvard (EDX) — Verified Certificate for CS50 Introduction to Programming with Python

December 2022 to Present

Learned how to read and write code as well as how to test and "debug" it. Learned about functions, arguments, and return values; variables and types; conditionals and Boolean expressions; and loops. Learned how to handle exceptions, find and fix bugs, and write unit tests; use third-party libraries; validate and extract data with regular expressions; model real-world entities with classes, objects, methods, and properties; and read and write files.

Coursera — *Crash Course on Python*

July 2022

Coursera — *Google Data Analytics Professional Certificate*

December 2021

Learned to be competent in tools and platforms including spreadsheets, SQL, Tableau, and R. As well as how to prepare, process, analyze, and share data for thoughtful action. Those who earn this certificate have completed eight courses, developed by Google, that include hands-on, proactive-based assessments and are designed to prepare them for introductory-level roles in Data Analytics.

UNAPEC — *2 years Advertising*

January 2008 - December 2010, Santo Domingo, Dominican Republic

Instituto San Juan Bautista de La Salle — *GED*

Sept 1993 - June 2007, Santo Domingo, Dominican Republic
